Work Experience

Cerner Corporation • Software Engineer Intern • May 2018 - Aug. 2018

Technical Toolset: Javascript, React, Rails, and Ruby on Rails

Daily Workflow: Agile, Github, Jenkins, Jira and Crucible by Atlassian

Description: Full Stack developer on Message Center Dev. Created a route that retrieves attachment details and displays supported attachments as a hyperlink. Added support to view the attachment in a popup when clicked. Wrote jest and capybara tests for these features.

Iris by Lowe's Smart Home Technology • Web Dev Intern • May 2017 - May 2018

Technical Toolset: Javascript, CanJS, DoneJS, MustacheJS, Docker, Universal GUI, XmlStarlet

Workflow: Agile, Github, Jira and Confluence by Atlassian

Description: Front end developer for a smart home control center. Created a dynamic dropdown list of NOAA weather radio alerts that users could subscribe to. Performed well enough to be invited back to continue my internship throughout the school year and created a GUI that manipulates a large file.

Projects

Web Scraper • 'Landscape' • Oct. 2017 - Dec. 2017

Technical Toolset: Html, CSS, Python, Flask

Daily Workflow: Agile, Gantt Chart, Github

Description: Teamed up with 2 classmates to create web-scraper. Queried Yelp and Foursquare to average the ratings of restaurants and businesses; worked on UI and UX.

Blog • www.Medium.com/@ljormiston • June 2018 - Present

Description: Set goal of self improvement with a larger mission of sharing meaningful lessons. Using my curiosity to sharpen creativity also improved my ability to synthesize thoughts and articulate them in a meaningful way.
